

## Surprise on International Women's Day

Oltalom Charity Society has numerous initiatives apart from the big projects financed by different international donors or the European Union. One of the examples is the surprise organised on International Women's Day.

The society organized a beautification on the occasion of International Women's Day for the residents of the women's temporary hostel. Oltalom took on the task of running the hostel from the Municipality of Budapest 20 years ago. The hostel provides accommodation and various services, such as training, coaching, job orientation, development of social competences, etc. for single women without a home. These women have faced serious difficulties in their lives, often victims of domestic violence, abuse or facing discrimination, suffering from traumas or living with other disadvantages.

On March 9, volunteer hairdressers, beauticians and manicurists arrived for the ladies to make this day more beautiful for them. Some of the persons volunteer regularly for the homeless or for Oltalom in particular, some others were newcomers. The heart-warming report covering the event was seen by 15 000 persons on YouTube.
